TO ATHLETES

THIS business, which you know of so well, to-day—A. G. Spalding & Bros.', the largest manufacturers and distributors of Athletic Goods in the world—was, thirty years ago, only an idea. At that time, in this country, there was no such thing as an Athletic Business, or, in fact, even an Athletic Store, as it would be called to-day. No one catered to the requirements of athletes, who, as a class, were not deemed worthy of consideration, and in no one store could a complete line of Athletic Goods be found.

The firm of A. G. Spalding & Bros. was started in March, 1876, with the idea of catering to Athletes solely, and with the purpose of supplying goods that could compel attention because of their quality. Base Balls were taken up first, and Base Ball Equipment, Suits, etc.; nothing being put out unless the quality was positively right. As other lines were added, this same principle was followed religiously, until to-day the Spalding line of Athletic Equipment includes practically everything required by an athlete, no matter in what sport he may be interested.

The personal ambition of the founders has been gratified already in the building up of this business, which has been successful from the start, first of all because there was a demand for Athletic Goods of reliable quality, and second, because we have been able to supply this demand. However, the personal ambitions or desires of anyone cannot be allowed to enter into the decision as to whether Spalding Athletic Goods shall continue to be made as they have been for the past thirty years, and we are gratified that the original principles underlying this business—reliability and satisfaction to the user—have been so well drilled into the minds, hearts and hands of each Manager of our Branch Stores, each Manager of our Factories, and, in fact, each and every one of our employees, that the Athletes of the United States, of Canada, of England, and of every other country where Athletic Goods are used, may be certain that their wishes and demands will always be considered as paramount, and Spalding Quality will never be deteriorated, even to satisfy the ever increasing demands for cheapness, in the face of a rising market in raw material.

We shall continue to supply Athletic Goods at fair prices, with satisfaction guaranteed, and we believe this determination of ours will be appreciated by all those who consider Quality as of paramount importance.

The Spalding Policy

DIRECT FROM FACTORY TO CONSUMER—THROUGH THE MEDIUM OF THE RETAIL DEALER

SPALDING ATHLETIC GOODS are on sale in stores located in practically every town of any size in the United States, and at our various Branch Stores and Depots, list of which we give on cover page of this catalogue. We prefer that you patronize your local dealer, but we will furnish our goods direct to consumers where they cannot be obtained, or will not be furnished by the local dealer, under the conditions named below.

Prices on Spalding Trade-Marked Goods are based entirely upon the cost of manufacture, with a reasonable manufacturer's profit, and a reasonable profit to the retail dealer added. Sales must be made at catalogue prices, except that for special orders by express or from distant points, the retail dealer is justified in asking a reasonable amount in excess of our catalogue prices to cover express and other charges. This is no more than just, considering that the prices we quote in this catalogue are for delivery at our Branch Stores or Depots, and if ordered from any of these points receiver would have to pay the express or carriage charges.

Other goods may be offered at a less price than those quoted in our catalogue, but only by degrading quality. No one can furnish athletic goods of equal quality at a less price.

A. G. Spalding & Bros

The Spalding Guarantee

WE promise to each purchaser of an article bearing our Trade Mark absolute satisfaction, and agree to replace, free of charge, any Spalding article which proves defective under ordinary conditions and after fair usage.

Transportation charges must be prepaid on articles returned for replacement or repair. If this is not done we shall refuse to accept delivery from transportation company. If the claim is allowed, the return carrying charges will be prepaid when it is replaced.

SPALDING
OFFICIAL LEAGUE BALL

Is the Standard of the World

It is the Original League Ball

It is the Official League Ball

It is the Universally Adopted League Ball

It is the Best League Ball

It has been formally adopted as the Official Ball of

THE NATIONAL LEAGUE FOR 29 YEARS

It has also been adopted as the Official Ball for all Championship Games by the following Professional Leagues:

EASTERN LEAGUE for 19 years
NEW ENGLAND LEAGUE for 19 years
WESTERN LEAGUE for 15 years
TEXAS LEAGUE for 12 years
WESTERN ASSOCIATION for 11 years
CALIFORNIA LEAGUE for 10 years
INTER-STATE LEAGUE for 9 years
NEW YORK STATE LEAGUE for 7 years
INTERNATIONAL LEAGUE for 5 years
NORTHWESTERN LEAGUE for 5 years
INDIANA, ILLINOIS and IOWA LEAGUE for 4 years

And by 22 other Professional Leagues that have adopted the Spalding League Ball from 1 to 4 years.

THE Spalding League Ball was first adopted by the National League in 1878, and is the only ball that has been used in Championship League Games since that time.

In the recent great World's Championship Games in New York between the New York Nationals and Philadelphia Americans the Spalding League Ball was used.

The Spalding Official League Ball is used by Yale, Harvard, Princeton and all prominent college teams. The soldiers and sailors in the United States Army and Navy use it exclusively. In fact the Spalding League Ball is in universal use wherever Base Ball is played.

Once in awhile a minor league will experiment for a short time with some other ball, but invariably returns to the Spalding League Ball, which has now become universally recognized **The Standard of the World**

NOTE—At the annual meeting of the National League of Professional Base Ball Clubs, held in New York City, December 14th, 1905, the Spalding League Ball was formally adopted as the Official Ball of that organization for an additional term of five years.

Mr. Harry C. Pulliam, President of the National League, under date of October 24th, 1905, says:—"It gives me great pleasure to say that there was not one complaint registered against the quality of the Spalding League Ball furnished the National League this past season by your company, and so far as my information goes, I can say that the ball was in every respect satisfactory."

BASE BALL

BASE BALL

The SPALDING OFFICIAL LEAGUE BALL

Used exclusively by the National League, Minor Leagues, and by all Intercollegiate and other Associations for over a quarter of a century. Each ball wrapped in tinfoil and put in a separate box, and sealed in accordance with the regulations of the National League and American Association. Warranted to last a full game when used under ordinary conditions.

No. 1. Official League Ball. Each, $1.25

"My boy wants a Spalding League Ball," says a father to the local dealer. "Don't keep it, but have something 'just as good,'" is the reply. This satisfies the father, who buys the "just as good" ball, gives it to his son, who says: "Why, this is not Spalding's!" "But it is 'just as good,'" says the father. "Not on your life," says the son; "I will take it back and get the genuine Spalding Ball or nothing."—An actual occurrence.

The Spalding 'Varsity League Ball

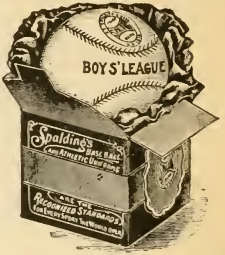
Regulation size and weight, fine selected horsehide cover, rubber centre, all wool yarn and far superior in material and workmanship to any of the various imitations of our Official League Ball. Warranted to last a full game without losing its elasticity or shape.

No. X. Each, **$1.00**

The Spalding Official Boys' League Ball

Made with horsehide cover, rubber center and wound with wool yarn. Same as our Official League Ball in every respect except slightly smaller in size. It is especially designed for junior clubs (composed of boys under sixteen years of age), and all games in which this ball is used will be recognized as legal games, the same as if played with the Official League Ball. Warranted to last a full game.

No. 1B. Each, **75c.**



Spalding Interscholastic League Ball

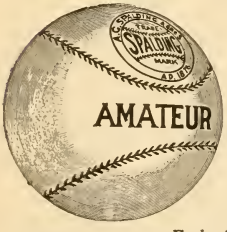
Same quality as the 'Varsity League, but smaller in size. Warranted to last a full game.

No. XB. Each, **50c.**

Spalding Double Seam Ball

Made with the same care and of the same material as our League Ball; the double stitch is used in its construction, rendering it doubly secure against ripping. Every ball is wrapped in tinfoil and warranted to last a full game.

No. **0.**
Each, **$1.25**



Spalding Amateur Ball

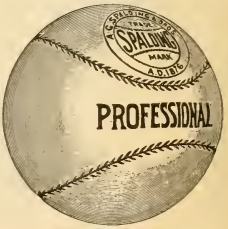
Full size ball. Selected horsehide cover, and well adapted for practice games.

No. **3.** Each, **50c.**

Spalding Professional Ball

Full size ball. Made of carefully selected material throughout, and warranted first-class quality.

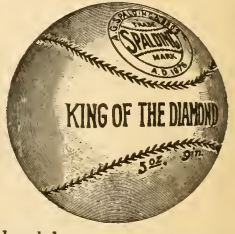
No. **2.**
Each, **50c.**



Spalding King of the Diamond

This ball is full size, made of good material and horsehide cover.

No. **5.**
Each, **25c.**



Each of the above balls is put up in separate box and sealed.

The pitcher of to-day does not have to test the ball that is thrown to him to see in just what way it has been doctored by the home club, as was the case thirty years ago. The Spalding Official National League Ball put an end to such sharp practice in ball playing and standardized the sport as nothing else could have done, or has been able to do.

HIGH FLYER

A very lively ball; the inside is all rubber, making it the liveliest ball ever offered at the price. Put up in a separate box and sealed.

No. **10.** Each, **25c.**

Slightly under regulation size, horsehide cover, and is very lively; carefully made and a perfect boys' size ball. Put up in a separate box and sealed.

No. **7B.** Each, **25c.**

LEAGUE JUNIOR

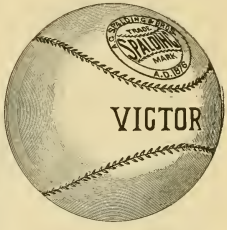
BOYS' FAVORITE

Horsehide cover and well constructed. An excellent large size ball for boys. Put up in a separate box and sealed.

No. **7.** Each, **25c.**

The best 15-cent ball ever put on the market. Each ball is put up in a separate box and sealed.

No. **6.** Each, **15c.**



VICTOR

BOYS' AMATEUR

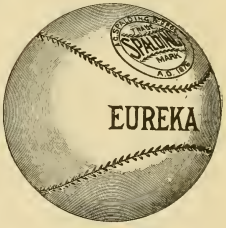
This ball is a little under regulation size, has a sheepskin cover, and is very lively. Put up in a separate box and sealed.

No. **14.** Each, **15c.**

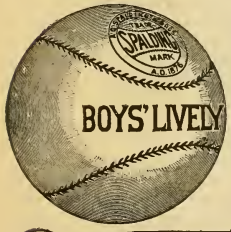
Spalding
Eureka Ball

Nearly regulation size and weight. The best cheap ball for the money on the market. Each ball trade marked. One dozen balls in a box.

No. **8.** Each, **10c.**



EUREKA



BOYS' LIVELY

Spalding
Boys' Lively

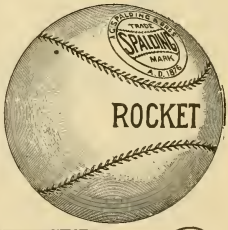
A good Boys' Lively Ball, juvenile size, two-piece cover. Each ball trade-marked. One dozen balls in a box.

No. **9B.** Each, **10c.**

Spalding
Rocket Ball

This is a good bounding ball. Size, 8 inches; weight, 4 ounces. The best 5-cent, two-piece-cover ball in the market. One dozen balls in a box.

No. **13.** Each, **5c.**



ROCKET

We do not make piano-fortes nor build houses, but we did make the Spalding Trade-Mark what it is and have built it up to its present high position, so it now stands for the best in athletic sports. Its tone is good and its foundation secure.

SPALDING GOLD MEDAL BATS

The popularity attained by the Spalding Gold Medal Bats simply illustrates the fact that in bat making something more than mere manufacturing skill is necessary. The man who makes a base ball bat should know just what is required, not merely in a general way, but in a special sense, and when he is shaping the timber there must be within him the knowledge and skill required to shape it so that the balance will be perfect and the bulk left in the correct place. This is something that comes only through experience, and we claim that a bat-making career extending over twenty-nine years, with unequalled facilities at our command, should be considered when players decide whose bats they will use.

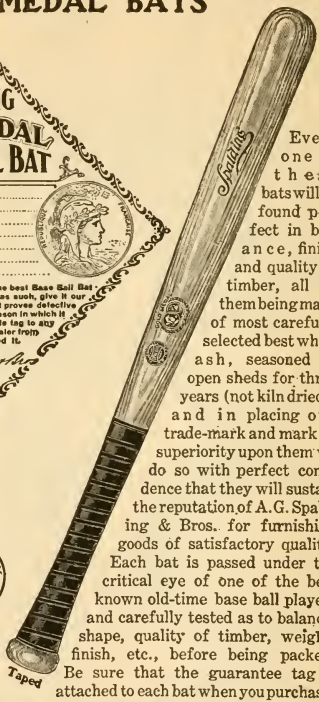
A. G. Spalding & Bros.



Every one of these bats will be found perfect in balance, finish and quality of timber, all of them being made of most carefully selected best white ash, seasoned in open sheds for three years (not kiln dried), and in placing our trade-mark and mark of superiority upon them we do so with perfect confidence that they will sustain the reputation of A. G. Spalding & Bros. for furnishing goods of satisfactory quality. Each bat is passed under the critical eye of one of the best known old-time base ball players and carefully tested as to balance, shape, quality of timber, weight, finish, etc., before being packed. Be sure that the guarantee tag is attached to each bat when you purchase.

When you have an athletic article that is just right you seldom have to look for the trade-mark, but if you do you will almost invariably find it bears the Spalding brand.

The Spalding Mushroom Bat

Patented Aug. 1, 1905

IN this bat a principle has been utilized which makes it many times more effective than the ordinary style under certain conditions, and as an all-around bat we have received many letters from prominent professional players testifying to their appreciation of the good points of its construction. They say: "Both balance and model are perfect," and we know both these points of construction have been brought as near to perfection as it is possible for human ingenuity to go.

The knob arrangement at the end of the bat enables us to get a more even distribution of weight over the whole length than is possible under the old construction, and for certain kinds of play the bat is practically invaluable. It is this feature which appeals to the up-to-date player, and even with nothing else to recommend it, the bat would be an acquisition for any player anxious to make a good record. Only the very best quality of air-dried timber has been used and every one is carefully tested by an expert before leaving our factory.

We recommend it heartily to our customers, feeling certain that they will find in the combination of good qualities which it possesses something which they have sought for in vain elsewhere—a perfect bat.

Plain Taped

For a long time I have been trying to find a bat that would balance when choking. Not until I used the Mushroom Bat have I found a bat that was up to my idea. This bat is used exclusively by the New York players. Yours truly,

JOHN J. McGRAW,
Manager New York Base Ball Club.

In all my experience as a base ball player I have not found a more satisfactory base ball bat than the Spalding Mushroom Bat. The timber is the best I have seen; the balance and model of the bat is perfect.
Yours truly,

JAMES J. CALLAHAN,
Manager-Captain Chicago American League Club.

I have played professional base ball for the last fifteen years and have tried all kinds of bats, but no bat has given me such good service as the Spalding Mushroom Bat. Quality and balance are perfect.
Yours truly,

WM. GLEASON,
Captain Philadelphia National League Base Ball Club.

The Spalding Mushroom Bat receives my hearty endorsement. My experience as a ball player enables me to thoroughly appreciate its good qualities.
Yours truly,

CHAS. A. COMISKEY,
President Chicago American League Club.

In all our experience as base ball players we have not found a bat more satisfactory than the Spalding Mushroom Bat.

Athletes everywhere recognize the superiority of Spalding Athletic Goods. They cannot fail to do so, because they know that in everything which makes for high class in athletics the Spalding Trade-Mark must appear.

SPALDING TRADE-MARKED BATS

Since 1877, when we introduced the Spalding line of Trade-Marked Bats they have been recognized as standard by players to whom quality is a consideration. Wherever possible, we have improved both style and quality from time to time, and the assortment as now made up comprises absolutely the most up-to-date and thoroughly trustworthy styles that can be produced. The timber used in their construction is seasoned from two to three years before using, thus ensuring not only a lighter and stronger bat, but also retaining the life quality and driving power of the natural wood.

BASE BALL

BASE BALL

SPALDING BASE BALL CATCHERS' MITTS come so close to the point of perfection in the opinion of the most prominent players in the country that it is exceedingly difficult, even with our most up-to-date equipment to produce something that can be considered an improvement, either from the view of greater utility or improved design, finish or material. We spend a great amount yearly in investigating improved tanning processes, and at our factory, we maintain an expensive department devoted wholly to the one object of improving the mechanical construction of our goods. All these efforts on our part cannot fail to bring nearer to the objective point—PERFECTION—the quality of Spalding Base Ball Catchers' Mitts, in common with the other items in our comprehensive line of athletic supplies.

Spalding "Three and Out" PATENTED Catchers' Mitt.

Molded Face. We believe this mitt, with its patented "Molded" face, will prove a revelation, not only to those old-time players who recollect the "make shift" arrangements they had to put up with twenty and odd years ago, but also to the newer generation, who have witnessed many improvements in the construction of catchers' mitts. Material throughout is best obtainable and we select for the face only leather which is perfectly tanned, because of the peculiar stretching and molding process which enables us to produce a perfect "pocket," with no seams or rough places of any kind on the face. Padded with best hair felt, metal eyelets and steel wire lacing, leather strap and brass buckle fastening at back . . . . . **Each, $8.00**

No. 8-0. Spalding "Professional" Catchers' Mitt Face of white buck, specially selected and best quality procurable. A vacillating policy in business finance leads to failure. A vacillating policy in the matter of quality leads to deterioration and dissatisfaction. A vacillating policy as to price leads to dishonesty The Spalding Policy is distinctly opposed to vacillation. A fair fixed price, uniformity and excellence of quality and a definite guarantee—is the Spalding Policy in a nutshell

Spalding's Trade-Marked Athletic Goods are not intended for ornaments, and they don't always look as pretty as similar goods of other manufacturers who oftentimes cater to the artistic and æsthetic tastes of the dealer rather than to the requirements and necessities of the boy and sportsman who want them for hard usage. Possibly if such manufacturers had to back up a guarantee like the Spalding, they might go in more for strength and utility and less for beauty.

SPALDING BASE BALL CAPS

Caps with the Spalding Trade-Mark have always been distinctive for good workmanship and durable material. Several improvements, making for comfort particularly, which we have included in the two best grades we know will be welcomed by players who appreciate the really good points of a first-class article. In ordering caps be sure to state style number or name, size, quality and color. Colors in each quality are the same as the corresponding quality of base ball uniforms.

A catalogue should be something more than an illustrated price list of articles. It must truthfully show the design, explain its use, place the comparative grade and fix an honest net selling price. This is the purpose of the Spalding catalogue. Any catalogue that fails in the above particulars is misleading, if not deceptive.

Spalding Highest Quality Base Ball Shoe

No. 2-O

A majority of European shop-keepers permit of "bantering" for prices on their wares. Some American dealers have several prices for different people, quote high list prices and offer a flamboyant "special discount" as an alluring bait; but A. G. Spalding & Bros. have one price for all, adhere strictly to it, and back up the sale by a liberal guarantee as to quality. This is the Spalding Policy.

BATHING SUITS

BATHING SUITS

SPALDING "PERFECT" BATHING AND SWIMMING JACKETS

Showing Trunks Buttoned to "Perfect" Vest. No possibility of Slipping. Fit closely to the Body.

THESE jackets are made of a fine quality air tight rubber fabric, similar to that used in our base ball body protectors, the front and rear sections being inflated separately, making jacket particularly valuable as a life preserver, the air in even one section being sufficient to keep a person afloat. Gotten up in the shape of a vest it can be attached to trunks or skirt of an ordinary bathing suit, and when shirt or waist is put on over the jacket it is not apparent from the outside.

The only practical life preserving garments ever devised with any idea as to style and fit which are not apparent when worn and which cannot slip or come off. Made of very finest materials, and with care should last a lifetime. When not in use can be rolled into a very small package.

No. 0W. Women's Jacket. . . Each, **$7.50**

Cork Swimming Jackets and Collars

The covering for these jackets and collars is a close woven canvas. The stuffing is the best quality ground cork. After the jackets and collars are properly stuffed they are put through a process of water-proofing. They will not soak up water as an ordinary life preserver, but will always remain buoyant. An invaluable device for learning to swim The large jacket will float any size person.

We are advertised by our loving friends and we hope to add your name to our list of well-wishers.

The Spalding "Highest Quality" Sweaters

We allow four inches for stretch in all our Sweaters, and sizes are marked accordingly. It is suggested, however, that for very heavy men a size about two inches larger than coat measurement be ordered to insure a comfortable fit.

Made of the very finest Australian lamb's wool, and exceedingly soft and pleasant to wear. They are full fashioned to body and arms and without seams of any kind. The various grades in our "Highest Quality" Sweaters are identical in quality and finish, the difference in price being due entirely to variations in weight.

Our No. AA Sweaters are considerably heavier than the heaviest sweater ever knitted and cannot be furnished by any other maker, as we have exclusive control of this special weight

No. AA.	Particularly suitable for foot ball and skating. Heaviest sweater made,	**$7.50**
No. A.	"Intercollegiate," special weight,	**6.00**
No. B.	Heavy Weight,	**5.00**
No. C.	Standard Weight,	**4.00**

Colors: White, Navy Blue, Black, Gray, Maroon and Cardinal. Other colors to order. Prices on application.
All made with 9-inch collars; sizes, 28 to 44 inches.

Striped Sweaters

Same quality as our No. B. Sizes, 32 to 42 inches. Colors: Red and Black, Navy and Red, Orange and Black, Navy and White. Stripes 2 inches wide.

No. BS. Each, **$6.00**

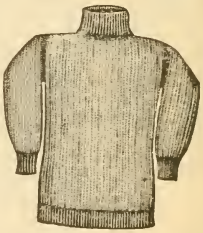
Any other combination of colors to order only at an advanced price.

Ribbed Sweaters

Our No. 9 Sweater is made of pure wool, full shaped to body and arms. It is guaranteed superior to any sweater of equal price. Guaranteed absolutely all wool. Sizes, 26 to 44. In following colors only: Maroon, Navy Blue, Black and Gray.

No. **9.** Each, **$1.50**

Shaker Sweaters



We introduced these sweaters to fill a demand for as heavy a weight as our "Highest Quality" grade, but at a lower price, and after much experimenting, we are in a position to offer this line in the following colors only: Black, Navy Blue, Maroon, Gray or White, as follows:

No. **1.**	Same weight as No. A,	**$5.50**
No. **2.**	Same weight as No. B,	**4.50**
No. **3.**	Same weight as No. C,	**3.50**

Sizes, 30 to 44.

Striped Sweaters

Same quality as No. 3. Sizes, 32 to 42, in following colors: Red and Black, Navy and Red, Orange and Black, Navy and White.

No. **3S.** Each, **$4.00**

Stripes 2 inches wide, in above combinations of colors only.

You feel good when you have one of our sweaters on, you look good on the gymnasium floor with one of our suits on, and you take a certain satisfaction and pride in showing your Spalding Trade-Mark to your uncomfortable friend in the ill-fitting clothes.

Upon the quality of material used in manufacturing an article, no less than upon its workmanship and finish, the reputation of a maker depends. We have never lost sight of this fact, and Spalding Athletic Goods always give good satisfaction in consequence.

SPALDING OUTING SHIRTS AND TROUSERS

STYLE D.

Observing closely as we do the demand for goods in the athletic line, we have seen for some time past that for certain athletic sports and for general outing purposes a well made, thoroughly up-to-date line of shirts and trousers would prove popular with many of our regular customers who have had to go to custom tailors to get anything of this kind that would be satisfactory in fit and finish. Much has been lacking however, from an athletic point of view, even in these high-priced shirts and trousers, and after quite a little preparation we have prepared to supply what we believe is the most suitable and best made line of outing shirts and trousers ever made. They are all made from the latest patterns, and a perfect fit is guaranteed. The quality of goods used is particularly suitable for athletic and outing purposes—strong and durable and light in weight.

The Spalding Policy has established a standard of quality, and at the same time a standard of price that is fair alike to the manufacturer, the dealer and the consumer, the three parties who should always be considered in any legitimate transaction involving merchandise. The dealer who handles Spalding Athletic Goods realizes the advantages of definite methods, certain profits and uniform quality.

Dr. Deimel (LINEN-MESH)

ATHLETIC SHIRTS

Made Expressly for
A. G. Spalding & Bros.

Sizes:
32 to 46 inches chest measurement.
Each, **$2.50**

An athletic shirt that is from its very nature best suited of any to the needs of those who through violent and continuous exertion perspire freely, and should therefore wear something next to the skin that will absorb moisture rapidly. "Linen Mesh" does this, and at the same time surpasses all other materials in the power of evaporating moisture or drying. We cannot recommend it too highly.

Don't be led into the common error that garments made of this material are designed primarily for people who are ill. Instead, they are meant to safeguard all, especially those who confident in their strength and health neglect the ordinary precautions of the prudent.

For use as a gymnasium shirt there is nothing to compare with this, while for general athletic wear its manifold advantages will make it popular with those who desire an article that is superior to anything similar ever made.

SPALDING MEN'S ATHLETIC UNDERWEAR

Nos. 15 and 10E

For some time past we have recognized the need of some kind of athletic wear that would be suitable at the same time for use as underwear, during the heated term especially, but throughout the year if desired, and to be sold at a price to bring it within reach of the ordinary pocketbook.

The Spalding Cotton Mesh Athletic Underwear we believe will be recognized as filling this need, and we are certain that the quality of each article will satisfy even the most exacting.

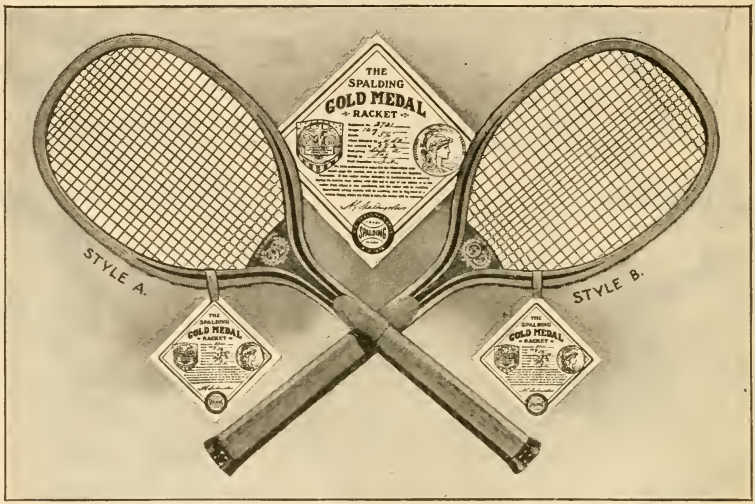
The successful financier must have money. The successful manufacturer must have ingenuity. The successful merchant, originality. The successful designer, genius. The successful artisan, skill. The successful Trade-Mark, reliability The successful concern must have general all-around business ability, integrity and honesty of purpose. A. G. Spalding & Bros. possess all of these successful necessities.



THE SPALDING GOLD MEDAL RACKET

THE SPALDING GOLD MEDAL RACKET, accompanied by the broadest guarantee ever given on an article of this kind has really proved the greatest sensation in the tennis line for many years. Our care in designing the racket at first, and then in making certain that every detail of manufacture was absolutely best quality, has brought to us players who were dissatisfied with rackets of unreliable quality, and a number of championships have been won by well-known players using the Gold Medal Racket. We use a dogwood insertion in shoulders after proving to our satisfaction by bitter experience that it is far superior to cane or other material for the purpose.

The difference between styles A and B is in the additional strings reinforcing the central portion of the latter. Handles 5 and 5 1-4 inches in circumference. Stringing of clearest and absolutely best quality lambs' gut. Each racket enclosed in special quality mackintosh cover. Tag attached to each racket giving particulars of special inspection.

GUARANTEE

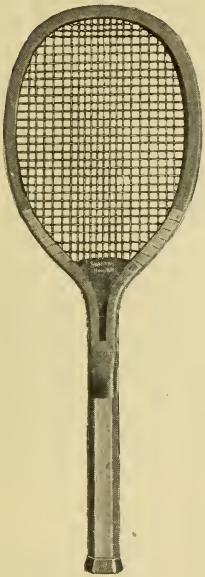
We have endeavored to make this the finest racket ever placed upon the market, and as such it carries the Spalding Guarantee. If this racket proves defective in workmanship or material during the current year, return with this tag to any of our stores, or to the dealer from whom it was purchased, and the defect will be rectified. Imperfectly strung rackets will be restrung, and in the event of a broken frame, where the fault is ours, the racket will be replaced.

A. G. SPALDING & BROS.

No. GM. Mahogany Handle. Either Style A or B Stringing. Each, $8.00

The Spalding Quality is so high that sometimes the Spalding prices seem to be high. Considering that only the very best of material is used, highest skilled American labor employed and the highest possible quality maintained, Spalding prices are less than the prices of any competitor.

THE SPALDING MODEL RACKETS



Model DH.

EACH model is distinctive, but quality the same throughout. Perfect balance assured. Quality of material and workmanship the best ever put into an article of this kind.

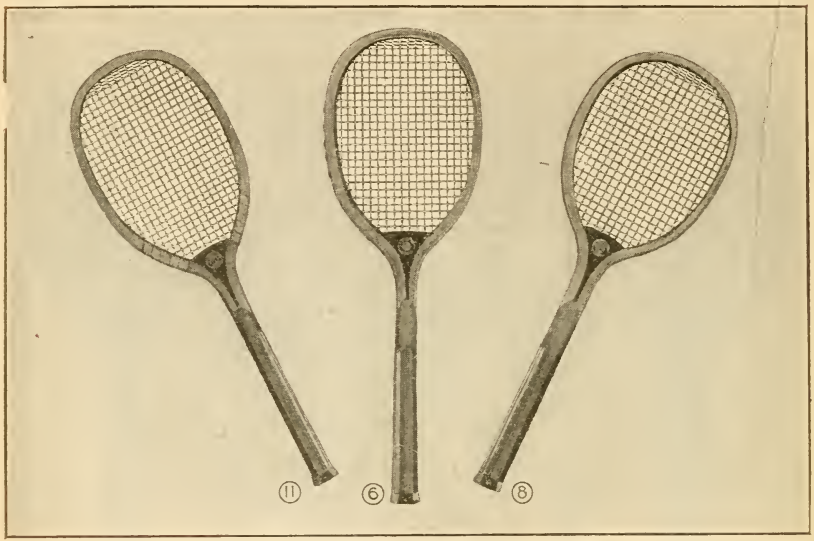
WE GUARANTEE *Tennis Rackets bearing the Spalding Trade-Mark during the playing season in which they are purchased, provided they are 13 ounces or more in weight. Any racket of 13 ounces or more in weight that gives out from defective material or workmanship during the season purchased, will be repaired or replaced without charge, provided it is returned to us prepaid with the name and address of the sender, together with a letter explaining the claim.*

CAUTION—*A Tennis Racket is extremely susceptible to atmospheric changes, and the very finest gut will give out occasionally through no fault of material or workmanship; such cases are not within the scope of a Guarantee. A Racket should always, when not in use, be covered with a Waterproof Cover, placed in a Racket Press, and kept in a cool, dry room. It is a wise precaution to varnish the gut occasionally.*

A. G. SPALDING & BROS.

We will supply, if required, but cannot guarantee, any rackets weighing less than thirteen ounces.

The Spalding Policy is entitled to the credit of being the pioneer in successfully establishing a new system of merchandising. In a few isolated cases similar attempts have been made with one article only, and with a greater or less degree of success, but we believe that restricted retail prices on a large number of articles have been maintained for the first time upon the successful introduction of the Spalding Policy.



SPALDING HIGH GRADE TENNIS RACKETS

THE good points in the following rackets can be vouched for by some of the most successful of last season's players. In all of them quality of material and workmanship is suberb and perfect balance assured. Each frame made of finest white ash, highly polished; combed mahogany handle, leather capped; stringing of good quality lambs' gut.

The Spalding Policy maintains the highest standard of quality on all articles bearing the Spalding name and Trade-Mark, establishes uniform net prices on each article commensurate with its actual value, all of which satisfies the user, is fair to the dealer and perpetuates ourselves.

The Spalding Championship Tennis Ball

ON the record made by the Spalding Championship Tennis Ball so far we are willing to base our claims for superiority, and wherever the ball is used, either in a tournament or regular play, we are certain our judgment will be confirmed. Absolutely best in every particular of manufacture and made by people who have been in our employ, many of them for twenty years and over, we place the Spalding Championship Tennis Ball before the most critical clientele in the athletic world with perfect confidence that it will give absolute satisfaction.

For a number of years the impression prevailed in the United States that no one could manufacture a tennis ball in this country. To-day not five per cent. of the balls used are manufactured outside of the United States. Then came the golf craze, and no club, unless it was manufactured in Scotland or England, was any good. To-day, not five per cent of the clubs used are imported, and we are exporting in large quantities.

SPALDING HAND MADE NETS

We recommend most strongly our hand made nets. Quality of material and workmanship is absolutely the best, and they are well worth many times the additional cost over the ordinary machine made styles on account of their greater durability If posts are placed just 42 or 36 feet apart, nets will fit exactly when drawn taut.

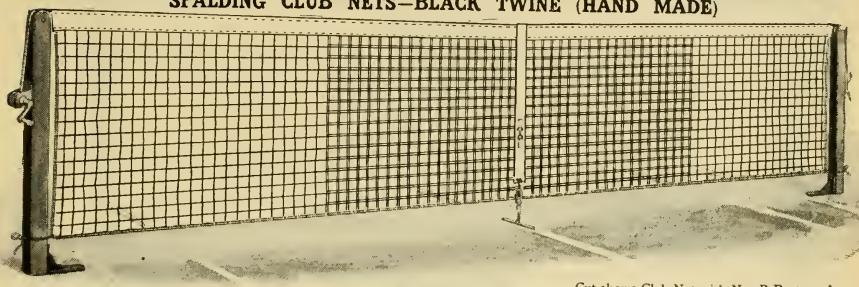
SPALDING CLUB NETS—BLACK TWINE (HAND MADE)



Cut shows Club Net with No. B Posts and No. 3-0 Centre Strap

Black nets supplied by us were used in some of the most important tournaments last season and gave perfect satisfaction. Players appreciate the advantage which a black net gives in showing out the white ball more distinctly while playing. Nets are dyed with fast coloring matter and by a special process which adds to their durability. Bound at top with a doubled band of 8 ounce white duck, 3 inches wide, and equipped with heavy tarred manila ropes at top and bottom.

SPALDING CHAMPIONSHIP TENNIS POSTS

This style post is really the most practicable ever made. Expert players who have taken part in national and other tournaments will recognize in it an old friend, improved in some respects and just as reliable as ever.

The uprights are made of heavy 2 inch japanned iron piping, pointed at lower end so as to go 24 inches into ground and equipped with wheel at top. Ratchet for tightening net is of an improved style, neat in appearance but with a particularly strong leverage. Iron hooks and cleats for fastening ropes.

One of the special features of this style post outside of the ratchet is the method of ensuring absolute rigidity when net is in position. By means of triple claw clutches made of heavy wrought iron there can be no shifting or shaking once they are placed in position, and the tighter the net is drawn the more rigid the posts become.

No. A. Per pair, $20.00

SPALDING CLUB TENNIS POSTS

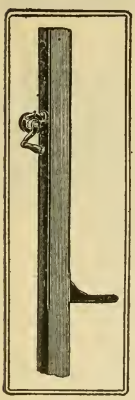
To ensure absolute rigidity, a prime requisite in a tennis post, it is really necessary that some part of the post itself should go into the ground. Our experience has taught us the futility of endeavoring to provide fastenings which do not embrace this idea, and we believe that the vast majority of those who have had anything to do with the care of a tennis court will agree with us in this statement.

Our Club Tennis Posts are made of best quality 2¾ inch square ash, nicely polished and varnished, equipped with japanned braces so as to make posts absolutely rigid, and when set in position the posts extend 24 inches into the ground.

We call particular attention to the extra heavy brass ratchet with which we equip this style post. It is made after an English design and is the same as supplied by our London House to some of the best clubs in Great Britain.

No. B. Club Tennis Posts. - - Per pair, $10.00

The printed catalogue prices on Spalding Trade-Mark goods are net and absolutely fixed as the only prices at which these goods are sold in our own New York, Chicago and Branch stores, and also by our numerous distributing dealers throughout the United States.



Spalding Casino Tennis Posts

Extra heavy square wood posts, painted red and nicely varnished and striped. Pulley wheel at top of each post to take top cord of net and reel of improved pattern to tighten net fastened to one post. Tether Tennis Game

The implements consist of an upright pole standing 9 or 10 feet out of the ground, having a line marked around the pole 6 feet from the ground. Attached to the top of the pole is a piece of cord, at the end of which is fastened a Lawn Tennis ball. The game is to wind the cord, with the ball attached, round the pole and above the black line, which is marked on the pole, and it is usually started by tossing for service. The winner then takes the ball in his hand and with the racket drives it round the pole; the opponent stops the progress of the ball and endeavors to drive it back again and round the pole in the opposite direction. A set is usually the best of eleven games. The service may either be taken alternately or continuously until the server loses a game.

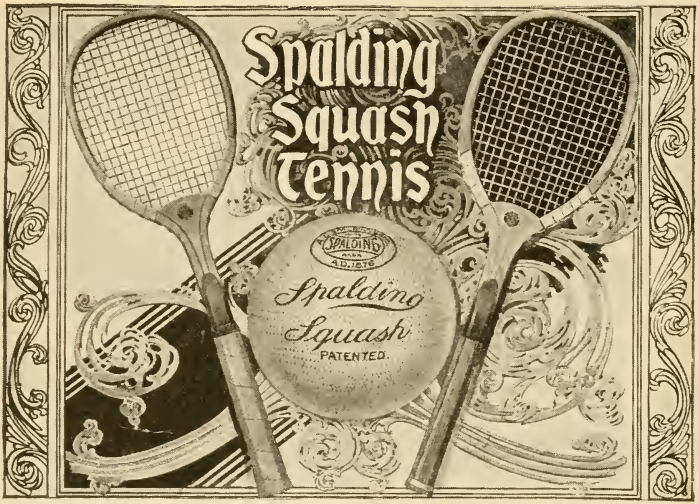
Summer days are very well, but we sometimes need something to while away an hour or so. Spalding lawn games will fill such gaps every time.



PLAYERS in the United States are rapidly coming to the conclusion that it is not necessary to send to the other side for Squash Rackets. Some of the best are now using Spalding goods with general satisfaction, and we look for a still further increase in the number of users this season owing to certain improvements introduced in the details of manufacture.

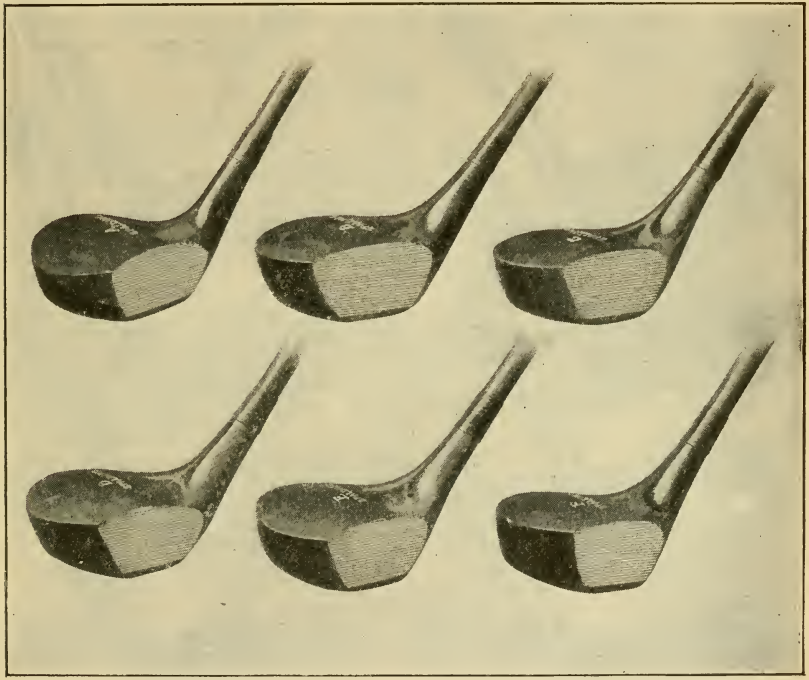
SPALDING GOLD MEDAL DRIVERS AND BRASSIES



THE SPALDING GOLD MEDAL WOOD CLUBS are manufactured from the finest dogwood and persimmon, and are all guaranteed. The models are duplicates of those used by some of the best golfers in the world; the grips are of finest calfskin, or our new rubber style, roughened; and the finish is the very best; the shafts are all second growth split hickory, and particular attention is given to the spring and balance of the club.

Spalding Gold Medal Drivers and Brassies. Each. $2.50

The special object of a catalogue is to impart intelligent, reliable, definite and accurate information about the articles to which it is devoted. It is along this line that we have aimed to make this catalogue, and we believe that we have made it so plain and convincing that a customer in Maine, California, Texas or Oregon, or any other part of the world, will feel quite as secure in trusting his orders to us by mail as if he had called at one of our various stores or agencies in person.

On goods which fluctuate in price, is it reasonable to expect that you are getting the same thing to-day for half what you paid for it a month ago; or if you do expect this, why not wait until next month, when the price will be cut still lower? Remember, material has to be paid for, and labor also, and unless you want to purchase an inferior article or one which has not been acquired legitimately, it is just as well to look for the Spalding Trade-Mark. Then you will be sure of standard quality and satisfaction.

ALUMINUM clubs, to our mind, represent no passing fad. Their merits and points of superiority have been attested by many of the most prominent players in this country, and the general run of players are gradually coming to understand the value of a non-rustable club, and one which will improve their general play without a doubt. Attention is directed particularly to our "Hammer Headed" Putter, cut of which is shown at bottom of page.

The Spalding Aluminum Golf Clubs

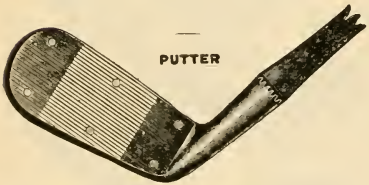
Spalding "Hammer Headed" Putter

The "hit or miss" policy of many manufacturers making athletic goods "Just as Good as Spalding's" and quoting at high list prices and varying discounts, is very deceiving and always leads to deterioration of quality, dissatisfaction of users and general uncertainty of values, The Spalding Policy is the opposite to this.

The Spalding Hollow Steel Faced Golf Clubs

(Patented June 8, 1897)



THIS style club is something that should be in the caddy bag of every golfer really interested in playing the best game possible. In construction it is scientifically correct, and the idea is one that needs only to be explained in order to meet with general approval. We rivet a piece of one-sixteenth inch highly tempered steel on a hollow head, and in that way give you spring and resistance combined at the point where they are required. Golfers of international reputation have endorsed them highly, and they bid fair to revolutionize club making to a great extent. The set consists of cleek, lofting mashie, mid-iron and putter. Each has points of superiority over the ordinary style, and any claim we may make in regard to them we are sure will be borne out by your experience after a trial. We know that the cleek, tried fairly, should improve your shots at least fifty yards, and we can make this statement safely because the assertion has been repeated to us so often by those who are using the club now.

Furnished with Finest Sheepskin Roughened Grips and Best Quality Throughout.

Athletes and sportsmen are very notional and whimsical about their implements, which are the invariable subject of comparison and discussion when they meet. In addition to the direct effect on the result of a contest, there is a sort of pride and satisfaction in possessing the latest, most approved and up-to-date implement. The Spalding Trade-Mark is a mark of refined superiority that requires no explanation or apology.

There is probably no class of manufactured goods of equal variety that receives harder usage than athletic goods. The golfer throws his whole strength into his frail looking driver, the ball player tries to knock the cover off the ball, and the footballer—well, words fail to describe what he subjects the foot ball to. And so it is practically with everything in the athletic goods line—no quiet parlor ornaments anywhere. Spalding Athletic Goods are made to stand just such usage. That is why they are used so generally by athletes.

Spalding RED, WHITE and BLUE Golf Balls

"Nothing Succeeds Like Success."

The success attained by the Spalding Red, White and Blue Golf Balls wherever they have been used proves that they are easily as far in advance of the ordinary rubber cored balls as they in turn were ahead of the old solid gutta balls.

This is the ball that was used by Mr Chandler Egan when he won the Amateur Championship of America at Chicago. Mr. Egan says: "I used the Red Dot White Ball during the Amateur Championship at the Chicago Golf Club and I found it highly satisfactory in every way."

This is the ball that was used by James Braid when he won the Open Championship of the World at St. Andrews, Scotland, June 7-9, 1905, and by Rowland Jones, runner-up in same tournament.

This is the ball that was used by Willie Anderson, winner, 314; Alex Smith, runner-up, 316; P. J. Barrett, third, 317, in the Open Championship of America at Myopia, Sept. 21 and 22, 1905.

To A. G. Spalding & Bros.,
63/65, Fetter Lane, London, E.C.

Dear Sirs:—I played with the "Spalding White" at the following meetings, which I won:

St. Annes on Sea, 10/11 May '08.
Bussey Tournament, 18/20 May '08.
Open Championship of the World, St. Andrews, N. B., 7/8 June '08.
Sons of the World Tournament, Walton Heath, 2/3 Oct. '08.

And other meetings, and can truthfully say that I never played with a better ball.

Yours very truly,
Jas Braid

Messrs. A. G. Spalding & Bros.,
63, 64, 65, Fetter Lane, London, E.C.

Dear Sirs:—I played with the "Spalding White" in the Open Championship at St. Andrews this year, in which I was the runner up, and returned the lowest score for a single round. I can truthfully say I have never played with a better ball.

Yours truly,
Rowland Jones

Gentlemen:—I used the Blue Dot Wizard and won the Metropolitan Open Championship. I also used it and was second in the Open Championship of America. I can honestly say I never, in all my life, played with a better driving ball or a better putting ball, and consider it the best ball on the market to-day.

Yours truly,
Alex Smith

A. G. SPALDING & BROS.,
New York.

Dear Sirs:—I played with the Blue Dot Wizard in the Open Championship at Myopia, which I won. I consider it the best ball I ever played with, as I got greater distance and putted better with it than I have ever done with any other ball.

Yours truly,
Willie Anderson

Thirty years of quality making, with one object in view, viz., to produce the correct article for the athletic purpose intended, using best material and employing experienced skilled workmen, has been and will continue to be the purpose of A. G. Spalding & Bros. in conducting their manufacturing departments.

SPALDING CADDY BAGS

WE use in our canvas bags the heaviest and best grade of duck suitable for the purpose. In our leather bags we use solid leather and not thin strips glued together. All our handles are made to conform to a man's grip and are guaranteed not to break at the bend. All the bottoms are studded and double sewn on our own patented machines. Stiff leather bags are put up in individual pasteboard boxes.

The price of something "Just as Good," under the eloquence of the "Just as Good Dealer," may, for the moment, be alluring, but do not be persuaded by that delusive eloquence. Get the best—which is assured and guaranteed by the Spalding Trade Mark— and you will be getting a reliable athletic implement without that "hot air" eloquence.

The Spalding Trade-Mark is the seal of reliability. When you see it on any article you purchase, you can be certain that you have the best that can be obtained anywhere at the price. It does not deceive with high list prices on inferior goods and "large" alluring discounts to catch the unthinking, and it does not stand for humbug of any kind.

ALDRED ARCHERY GOODS

WHEN we secured the exclusive agency for the sale of the well known line of Archery Goods manufactured by Thos. Aldred, it was our idea that as headquarters for athletic goods of every description in the United States and Canada archers would find it convenient to purchase their supplies through the various branch stores of A. G. Spalding & Bros. No manufacturer is better known in this line than Thomas Aldred, and his goods will be found eminently satisfactory. Expert archers will be able to select from our stock, Bows, Arrows, and other requisites made under his personal supervision, and possessing all the advantages which an experience of over fifty years enables a manufacturer to add to the ordinary value of a well made article.

Archery has fluctuated in popularity during the past thirty years in this country, but during all of that time the sport has held its place high in the estimation of people who have required out-of-door exercise of an invigorating nature, but not too violent. The antiquity of this form of amusement, and the general knowledge of the use of the various implements required, renders a special reference to these matters unnecessary, but a few words regarding the selection of bows and arrows may not be out of place.

Gentlemen's bows should be 6 ft. and ladies' 5 ft. to 5 ft. 6 in. Weight of your bow should be according to your strength, and particular care should be used in making selection, to avoid picking one with too strong a pull.

Gentlemen's arrows should measure 28 in.; sometimes longer ones are used. Ladies' arrows 24 and 25 in. Arrows are weighed against new English silver coin. Ladies' weigh from 2 6 to 3 6 and gentlemen's 4/- to 5/-, according to the distance—for instance, at 60 yards a heavier arrow may be used than at a hundred yards. When shooting in company, arrows should be painted or marked differently for each person, so as to be distinguishable.

The first aim in Spalding Athletic Goods is to produce an absolutely satisfactory article. The price is entirely a secondary consideration. Our method of manufacturing is first to show how perfect we can make an article, and then the selling price is fixed by adding a reasonable manufacturing profit to it.

Spalding Lawn Bowls

This game is increasing in popularity very rapidly. As a lawn game it is unexcelled, and wherever introduced it has met with continued favor. The very complete line of goods listed below is carefully selected quality and the prices extremely moderate.

No. **207**. Price, **10c.**

Non-uniform and uncontrolled selling prices on well known standard articles can be likened to steam in an engine running without a governor. Deterioration, loss of power, exhaustion and havoc generally result. The Spalding Policy is the governor that steadies the Athletic Goods business, and the Spalding Quality is the generally recognized standard for other manufacturers to imitate.

A. G. Spalding & Bros. commenced business at Chicago, March 1, 1876, with a capital of $800. The business was founded on the athletic reputation of A. G. Spalding, who acquired a national prominence in the realm of sport as captain and pitcher of the champion Rockford, Boston and Chicago Base Ball Clubs from 1866 to 1877. Base Ball Goods were the only articles of merchandise carried the first year, the total sales of which amounted to $11,000. Gradually implements and accesories of other sports were added, until the firm now manufactures the requisites for all kinds of sports.

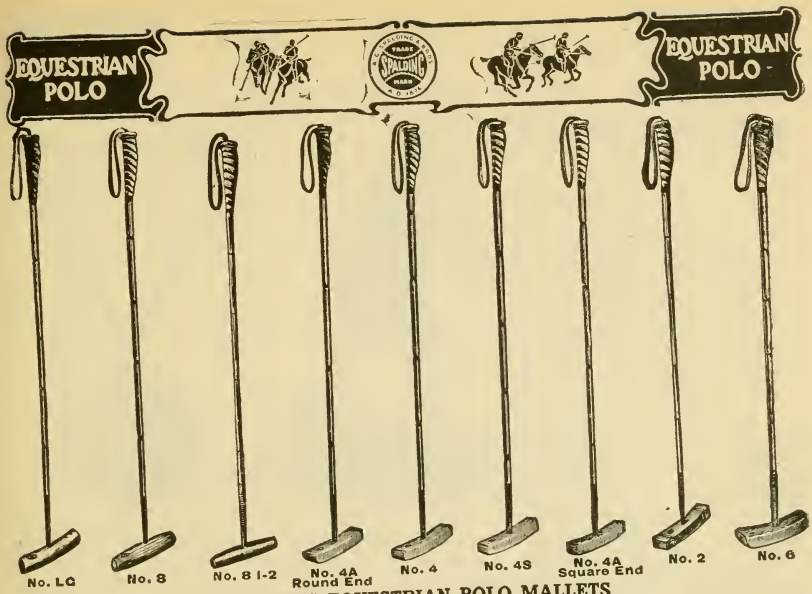
An honest effort to "play fair" in all dealings during the past thirty years of its existence has placed the house of A. G. Spalding & Bros. in its present proud position as the recognized leader and authority on athletic goods throughout the world, and a similar effort for the next thirty years, we believe will keep it there.



SPALDING EQUESTRIAN POLO MALLETS

Our mallets are made after models that some of the best players in this country and England have approved. The variety of heads is large enough to make a choice very easy even where it is not possible to select personally from our stock. Particular attention will be given to orders received by mail and customers' instructions will be followed exactly in picking out the model of head and length of handle required. Our unequalled facilities for the manufacture of goods of this character make it possible for us to turn out a more varied assortment than is practicable in a smaller establishment. Besides, we are receiving continually through our London branch new models which meet with favor on the other side or in India, and the line illustrated above is really only a part of the assortment we carry in stock at all times.

In ordering please specify number of model as illustrated above and state length of handle desired.

The selection of wood entering into the manufacture of these mallets has been made with great care. The various models will be supplied in kinds of wood as specified below.

No. **2.** Willow or limewood head with bound or unbound ends.

Foster's Patent Safety Hurdle

The frame is 2 feet 6 inches high, with a horizontal rod passing through it 2 feet above the ground. The hurdle is a wooden gate 2 feet high, swinging on this rod at a point 6 inches from one of the sides and 18 inches from the other. With the short side up it measures 2 feet 6 inches from the ground, and with the long side up, 3 feet 6 inches. The hurdle can be changed from one height to the other in a few seconds, and is held firmly in either position by a thumb-screw on the rod. It would be hard to conceive any device more simple or more easily handled than this. The invention was used exclusively at the Olympic Games at St. Louis and has met with the approval of the best known physical directors and trainers of the country.

The Spalding "Long Distance" Megaphones

Are made of a fibre board, scientifically prepared and shaped to increase the resonant qualities, and chemically treated to retain this feature under all conditions of weather. This prepared board is used exclusively by us in the construction of megaphones and wonderfully accelerates the transmission of the sound waves. On the water, shore, or in any open country where there are no obstructions and no local sounds to interfere, it is not difficult to talk and hear to and fro over a distance of a mile with our "Long Distance" Megaphones, while a loud call or hail can be heard about two miles. Voices and other sounds from a distance, which would otherwise be inaudible, can be heard with great distinctness when using the instrument as a receiver.

Spalding Official Push Ball

Recently this game has taken a great stride in the public estimation both in England and the United States, and it is an interesting feature at many athletic contests. Some games have also been played where the players were mounted on horses.

Inflated, this ball measures six feet in diameter, and it is so constructed that there is practically no danger of puncturing. The cover is of heavy cowhide, sewn by the same workmen who have been making our foot balls and basket balls for years past. The bladder is made of pure Para rubber, and with each ball we supply a large foot pump for inflating. This ball is really the only one that should be put in play by teams who wish to avoid disappointing their audience on account of a puncture during the course of a game.

No. H. Official Push Ball. Complete, **$200.00**

The Spalding Policy has made it possible for the athletic goods dealer to eliminate from his business that element of uncertainty which had done much to discourage the merchant who desires to handle a line of these goods. A fair profit is assured on every sale of Spalding Athletic Goods.

Spalding Improved Medicine Balls

Weigh from four to nine pounds. The covering is of selected tan leather sewn in the same manner as our foot balls. Quality throughout has been much improved and the balls as now made are extremely durable. The exercise consists of throwing ball to one another, and the catching of it develops the chest, exercises the back, arms, legs; in fact, improves the whole system.

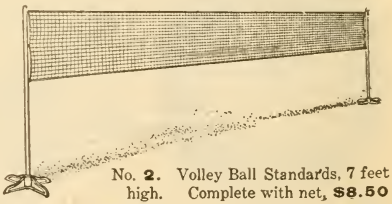
No. **11.** 4-lb. ball. Each, **$5.00**
No. **12.** 6-lb. ball. " **6.00**
No. **13.** 9-lb. ball. " **7.00**

Volley Ball

Volley Ball is a new game which is pre-eminently fitted for the gymnasium or the exercise hall, but which may be played out of doors. Any number of persons may play the game. The play consists of keeping the ball in motion over a high net, from one side to the other, thus partaking of the character of two games, tennis and hand ball. Made of white leather. Constructed with capless ends and furnished with pure gum guaranteed bladder.

No. V. Regulation size; best quality. Each. **$4.00**
No. W. Regulation size; good quality. **2.50**

Volley Ball Net and Standards



No. **2.** Volley Ball Standards, 7 feet high. Complete with net, **$8.50**

Give one hundred players in any branch of athletics their choice of manufacturers and ninety-nine will invariably select Spalding. Why? Because they recognize and appreciate the quality of all goods of our manufacture.

THE SPALDING "CHAMPIONSHIP GLOVES" are endorsed by all champions and have been exclusively used for years in championship contests and in training. The material and workmanship are of highest quality, the fit is perfect, and by their peculiar construction absolutely prevent any chance of injury to the hands or wrists. Each set is carefully inspected before packing, and guaranteed in every particular. Made in three sizes, in sets of four gloves.

No. **115.**	The Spalding "Championship" Glove, 5-oz., Corbett pattern, padded wrist.	Per set, **$6.00**

Same style as our Championship Gloves, but not quite so high a quality in material or workmanship.

No. **218.** Per set, **$4.00**

The Spalding 10-oz. Instructor's Glove

Made of best grade brown glove leather, extra heavily padded over knuckles and with special large padded thumb to prevent injury to either instructor or pupil. Laces extra far to provide ample ventilation and has patent palm grip.

No. **100.** Instructor's Glove, 10-oz. Per set, **$5.00**

The Spalding 5-oz. Boxing Glove

None better at any price

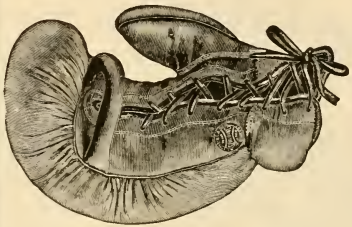
Made of special quality light tan colored glove leather, very soft and smooth. Plain laced wrist band, patent palm lacing and patent palm grip. An ideal glove for limited round contests.

No. **105.** Boxing Glove, 5-oz. Per set, **$6.00**

The "Ingratitude of Republics" is proverbial, but we believe we have earned the gratitude of a majority in the "Republic of Sport" by supplying reliable goods at moderate prices.

SPALDING BOXING GLOVES

JIMMY BRITT



Above illustrates the patent palm lacing and patent palm grip referred to in descriptions of following boxing gloves. With these improvements we believe our line is absolutely the finest on the market. The patent palm lacing, insuring a snug fit at all times, is a very valuable feature, and the patent palm grip, we know, will be appreciated by those who want gloves that are up-to-date in every particular.

NEW YORK, May 16, '04.

A. G. SPALDING & BROS.

Gentlemen: After having used all kinds of boxing gloves, both as an amateur and professional, I can truthfully say that in my opinion, the Spalding Championship Boxing Glove is the superior of all others for three reasons. First, it is well made and lasting. Second, they do not cut or bruise the skin, and lastly, they are so padded as to make injury to the hands almost impossible.

Very truly yours,

Jimmy Britt

Champion Featherweight Pugilist of the World.

The Spalding Guarantee is broad enough to cover everything for which a manufacturer should properly be held responsible. That is all that fair people expect and we pride ourselves on a clientele whose fairness is proverbial, the vast army of athletes who use Spalding Athletic Goods.

SPALDING BOXING GLOVES

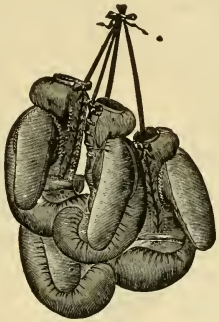
A. G. Spalding & Bros.

Gentlemen: I have carefully inspected the glove you are manufacturing, called the "Spalding Special" Contest Glove, and after a thorough examination must confess it is by far the most comfortable glove I have ever had on my hand. It possesses all the requirements and I am fully satisfied it will gain universal recognition and will be adopted by all the promoters throughout the country. The idea of being made of special kid leather, and also being lined with a special tanned perspiration proof leather, makes it doubly strong, for it can stand any amount of rough usage without becoming unfit for use, as in most instances, after a glove becomes wet with perspiration, it stretches and gets out of shape and is utterly worthless.

I gave the glove a thorough trial and am confident you have hit the nail on the head, and have no hesitancy in recommending the article in question to those who are interested.

Yours very truly,

Young Corbett



Spalding's Youths' Boxing Gloves are made in exactly the same manner and of the same material as the full size gloves of our manufacture and are warranted to give satisfaction.

Is there any line of manufacture covering as wide a range as athletic goods in which a single firm has built up a reputation as high as that possessed by A. G. Spalding & Bros.? A reputation which depends primarily on their ability to turn out goods that are absolutely unapproachable in quality, style and finish.

THE SPALDING STRIKING BAGS

The Bladders used in all our Striking Bags are made of pure Para Rubber and are Fully Guaranteed

All our single end bags are made with solid leather top, through center of which rope passes, making them the most certain in action of any. Laces on side at top, so that the bladder can be inflated without interfering with rope. Each bag is most carefully inspected and then packed complete in box with bladder, lace and rope.

It is with modest but pardonable pride that we refer to the growth and success of A. G. Spalding & Bros. since its formation, March 1, 1876, but that in which we take the greatest satisfaction and pride is the original inauguration and successful working out of the Spalding Policy, which, in effect, has been the pioneer in blazing an entirely new system of merchandizing.

No. E. Elastic cord for double end bags. **.20**

All Rubber Bladders bearing our Trade-Mark are made of Pure Para Rubber and are guaranteed Perfect in Material and Workmanship. We will replace any which prove defective within one year from date of purchase. We except from the provisions of this Guarantee, and will not replace bladders which are punctured within two inches of the stem, or any which show from their appearance that they have been subjected to abuse. A puncture within two inches of the stem indicates carelessness in lacing, with the probability that some sharp instrument used to lace the ball, or bag, has punctured the bladder; or else the leather flap inside the opening has not been drawn over smoothly to protect that part of the bladder adjacent to the stem, before the ball or bag was inflated. A puncture or break which occurs on account of either of these causes we do not hold ourselves responsible for, and bladders so punctured will not be replaced.

The Spalding Policy has raised the tone of the athletic goods business by doing away with the unprincipled method of price bantering and bargaining, so common in the athletic trade before its introduction. The consumer now knows just what he has to pay for an article, and the merchant obtains a legitimate profit on every sale of Spalding Athletic Goods.

The Spalding Patent Solid Striking Bag Disks

PATENT PENDING

THE solid disk for striking bags will always hold a high place in the estimation of many on account of the variety of work it permits. The style which we originally introduced some years ago is the one which has been imitated most generally, but in all these substitutes the makers, while making them lighter, have uniformly neglected the most essential point and have produced an article flimsy and unsatisfactory to a degree.

A striking bag disk must be substantial if it is to be of use, and in the various styles, both adjustable and braced, which we list below, this feature has not been neglected, while we have striven to put out a disk which is suitable for home use and moderate in price.

Adjustable Style

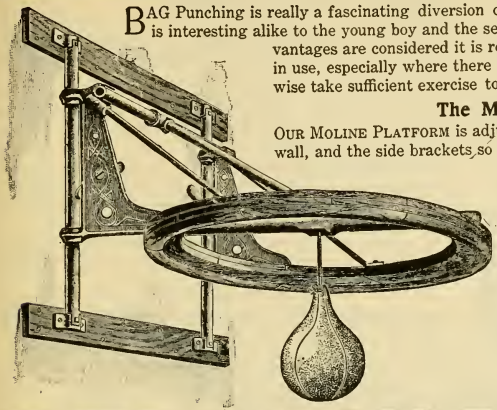
No. C-R. Complete, without bag. Each, **$7.50**

Wall Braced Style

No. F-R. Complete, without bag. Each, **$5.00**

"Consider not our defects." We do not claim that nothing of our manufacture will ever prove defective, but we guarantee to replace whatever does. That's what the Spalding Guarantee means.

STRIKING BAG PLATFORMS



BAG Punching is really a fascinating diversion capable of so many combinations that it is interesting alike to the young boy and the seasoned athlete. When its healthful advantages are considered it is remarkable that there are not more bags in use, especially where there are boys and girls who would not otherwise take sufficient exercise to keep them in good physical condition.

The Moline Platform

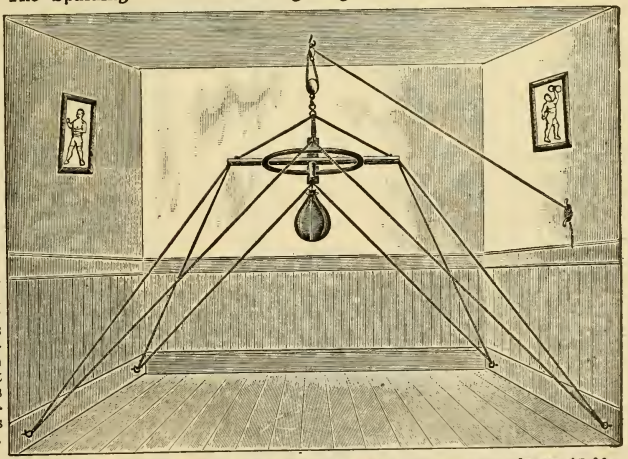
OUR MOLINE PLATFORM is adjustable in height, readily attached to any wall, and the side brackets so arranged that it touches three rows of studding. Neat in design and handsomely finished, it in no way detracts from the appearance of the room, does not obstruct the light, and overcomes many other objectionable features of the old style disk usually costing double the price. Each platform is supplied with everything necessary for attaching to wall, and crated ready for shipment.

No. 1. Moline Platform, $10.00

Bag is not included in above price. See list of bags on preceding pages.

The Spalding "Aerial" Striking Bag Platform

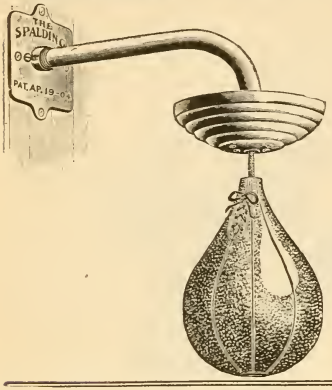
The SPALDING "AERIAL" PLATFORM only recently introduced, combines in itself practically all that is desired in an article of this kind, and the price is so low that it is within reach of all. Vibration and noise are really eliminated in this as far as it is physically possible, and with the Spalding Aerial there is only the sound of the bag as it meets the ring, and all the vibration is taken up by the supporting ropes. This platform can be approached from any side, something that is not possible with the ordinary style, and when the ropes are secured at end of cross pieces it is as rigid as any of the ordinary gymnasium disks supported by steel guys.



The Spalding "Aerial" Striking Bag Platform, complete with bag and everything necessary for setting up, $5.00

The reputation of Spalding Athletic Goods for quality, which has been made in over a quarter-century of successful business, has not been a thing of chance, but has been acquired only by manufacturing with the utmost care, and giving to the public athletic goods of the very best grade that could be manufactured.

STRIKING BAG PLATFORMS



THE SPALDING DISK PLATFORM

Patented April 19, 1904

Can be put up in a very small space and taken down quickly when not in use by simply detaching the curved fixture from the wall plate.

The metal disk against which the bag strikes constitutes one of the best features ever incorporated in an arrangement of this character, rendering it almost noiseless and very quick in action.

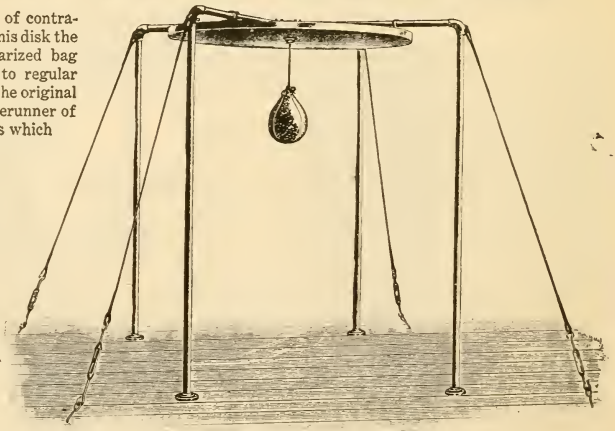
Suitable particularly for the home, and very useful to professional and business men who find a little exercise necessary to keep in condition.

The Spalding Disk Platform, Complete with Bag
No. Y. Each, $5.00

THE SPALDING GYMNASIUM DISK

We think without fear of contradiction we can claim for this disk the credit for having popularized bag punching as an adjunct to regular gymnasium work, for as the original solid disk it was the forerunner of all the various substitutes which have been put out since for home use, none having attempted to invade the field so admirably covered by this disk which we recommend simply for gymnasium purposes.

Made of solid white ash, two inches thick; complete with pipes, guys, floor plates and other fittings necessary for setting up on gymnasium floor; all fittings heavily japanned.



No. 81F. The Spalding Gymnasium Disk, Without Bag. Each, $45.00

We also make a similar disk to be suspended from ceiling or gallery. Price varies according to height and will be quoted on application, with particulars.

If a "Just as Good" dealer tries to persuade you that his "Just as Good" goods are "Just as Good" as Spalding's, be "Just as Good" as you can to yourself by letting him dump his "Just as Good" stuff on to some other fellow.

If the old proverb is true that "imitation is the sincerest form of flattery," then A. G. Spalding & Bros. are the most flattered concern in America, because there is not an athletic implement in this country that does not represent an attempted imitation of their designs and general styles.

THE balance of all our fencing foils is absolutely correct. Handle is good length and pommel sufficiently heavy to keep foil well in hand. We use the two standard blades, Coulaux and Solingen, and before leaving our factory every one is tested to detect flaws. The foreign manufacturers of these blades will give us no guarantee against breakage, and we are not in a position to guarantee them ourselves, but all repairs will be made at prices which include merely material and labor necessary.

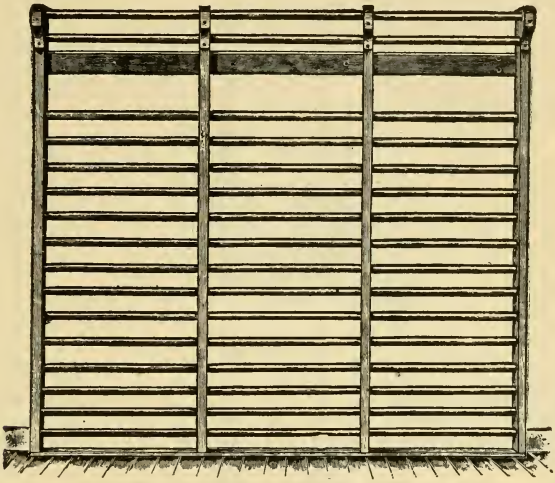
GYMNASIUM APPARATUS

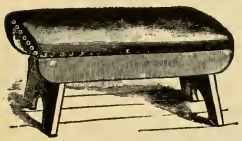
BAR STALLS



This piece of apparatus is a first-class all-around exerciser, especially good for abdominal work, adaptable to home use and a particularly desirable piece of apparatus for women and children. The uprights are 8 feet high, made from selected hard pine, modeled after the latest and most approved pattern, oval fronts, rounded corners, etc. The rungs are maple, having square tenons on end, fitting mortise in upright, and firmly wedged in place. There is no possibility of their working loose or turning. Nicely finished and well made throughout. Furnished complete with necessary wall boards, floor flanges for upright, screws, etc.

No. 204. Bar Stalls. Per Section, $8.00

The above cut shows three sections of bar stalls, each section being 3 feet wide on centres of uprights.



BAR STALL BENCH

Made of hard pine, strong and substantial. The top is padded with hair felt and covered with canvas. We think it is preferable, for sanitary reasons, that this canvas should be painted (a special elastic paint is used), and unless otherwise specified our stock benches will be so furnished.

No. 205. Single Bench. Each, $4.00

"We have succeeded in many things" and we hope to have success in our efforts to interest all the American people in our line of athletic goods.

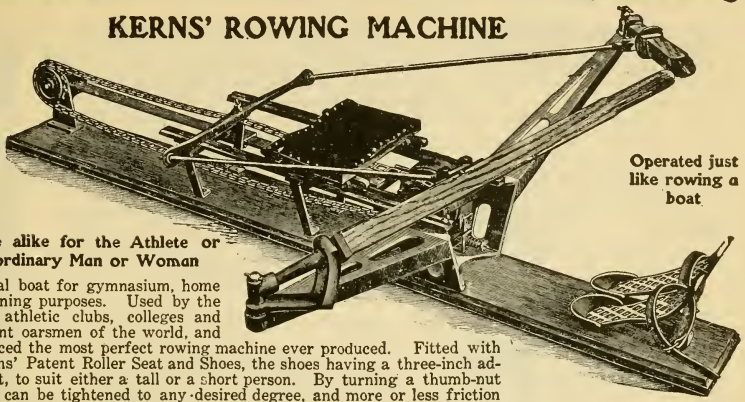
ROWING MACHINES

KERNS' ROWING MACHINE



Operated just like rowing a boat

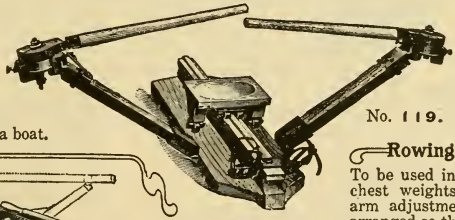
Suitable alike for the Athlete or the ordinary Man or Woman

The ideal boat for gymnasium, home and training purposes. Used by the leading athletic clubs, colleges and prominent oarsmen of the world, and pronounced the most perfect rowing machine ever produced. Fitted with the Kerns' Patent Roller Seat and Shoes, the shoes having a three-inch adjustment, to suit either a tall or a short person. By turning a thumb-nut the belt can be tightened to any desired degree, and more or less friction thrown into the running parts, imitating the resistance which exists when forcing a row-boat through the water. The weaker sex can use the machine by simply loosening the thumb-nut which reduces the resistance; and on the other hand, by reversing the operation the resistance can be so increased that the strongest athlete can have any amount of resistance. The oars are pivoted in such a way that the operator can handle and turn them the same as he would during the return and feathering motion with a boat oar.

No. 600. Kerns' Patent Single Scull Rowing Machine. Each, $30.00

The Laflin Friction Rowing Machine.

The means used to produce the resistance is a simple friction clutch, which takes instant hold at the commencement of the stroke and retains the pressure till its completion, when it instantly releases it precisely as in a boat.

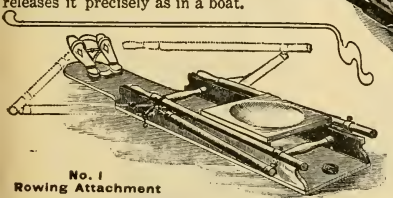


Quickly taken apart without loosening any bolts or screws. Each machine is adjustable to any amount of friction or resistance.

No. **119.** Complete, **$16.00**

Rowing Attachments

To be used in connection with any chest weights which have centre arm adjustment, or with handles arranged so that they can be pulled from a bracket close to the floor.



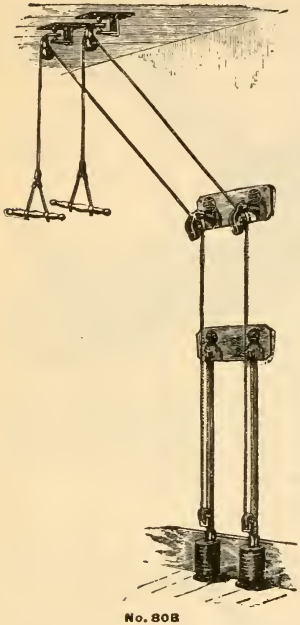
No. 1 Rowing Attachment

No. 2 Rowing Attachment

No. **1.** This attachment as will be noted, has out-riggers and arms similar to the rowing machine, and offers a great variety of work when used in connection with the chest weight. . . . Complete, **$10.00**

No. **2.** Designed to fill the demand for a low priced article of this kind, built along substantial lines. Will give entire satisfaction. . . . . Complete, **$8.00**

It is on the completeness of the Spalding line that we pride ourselves particularly. The fact that we can supply ALL your athletic goods means considerable to you as a purchaser.



No. 80B

INTERCOSTAL PULLEY WEIGHTS

The Intercostal developer is really one of the best possible machines for broadening and squaring the shoulders and deepening the chest. In this exercise the breathing functions are properly employed naturally, it being natural to inhale in raising the hands high above the head and to exhale in bringing them down. This makes this machine more effective for the purpose than the ordinary style.

No. **80B.** Heavy construction, ordinary weights. Each, **$20.00**

No. **90B.** Light construction, ordinary weights. Each, **$18.00**

KERN'S PATENT WAIST REDUCING MACHINE

This machine is adapted for either home or gymnasium use, and can be placed against the wall or any upright support, requiring only ten inches of wall space in width. The resistance can be adjusted to various strengths and made light or heavy to suit the will of the operator. A small clock-face dial registers the number of feet of rope pulled and enables the operator to regulate the amount of work he should do. This is really an all-around exerciser, as by varying the positions every muscle of the body can be worked to good advantage.

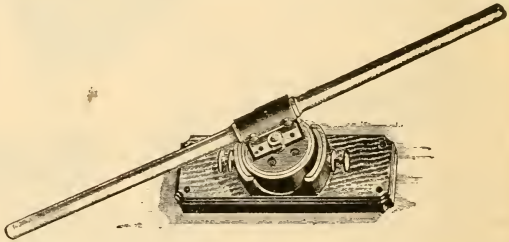
No. **800.** Waist Reducing Machine. Each, **$12.00**

No. 800

WRESTLING MACHINE

This is a first-class developer for arm, back and waist muscles. Any tension may be put on the friction cylinder, grading the exercise to suit the strength of the person using the machine.

No. **65.** Each, **$12.00**



When you buy an athletic article bearing the Spalding Trade-Mark, you know that the name and the mark represents satisfaction carried to the point beyond which no reasonable man can go—replacement or money refunded if the article does not prove to be all that we state it is in quality, finish and general durability.

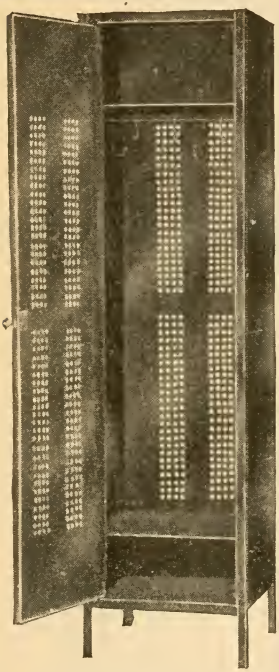
The rapid growth of athletic sports in the United States during the past thirty years has been coincident with a similar growth of A. G. Spalding & Bros. during the same time. Athletic sports and the name of Spalding are synonymous terms, and it will continue to be our aim and pride to perpetuate the combination.



Durand-Steel Lockers

LOCKERS THAT LAST

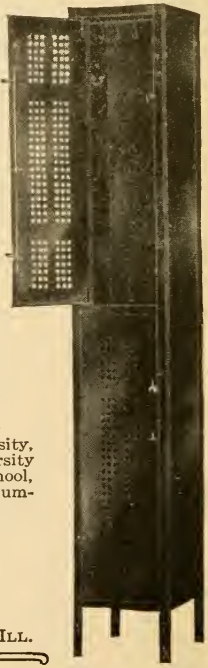
Wooden lockers are objectionable because they attract vermin, retain odors, and can be easily broken into, and are dangerous on account of fire.

Lockers made from wire mesh or expanded metal afford little security, as they can be easily entered with wire cutters. Clothes placed in them become covered with dust; and the lockers themselves present a poor appearance, resembling animal cages.

Durand-Steel Lockers are made of high-grade steel plates, and are finished with gloss-black Furnace baked (400°) Japan, comparable to that used on hospital ware, which will never flake off nor require refinishing, as do paints and enamels.

Durand-Steel Lockers are usually built with doors perforated full length in panel design, with sides and backs solid. This prevents clothes in one locker from coming in contact with wet garments in adjoining lockers, while plenty of ventilation is secured by having the door perforated its entire length, but if the purchaser prefers we perforate the backs also.

The cost of Durand-Steel Lockers is no more than that of first-class wooden lockers, and they last as long as the building, are sanitary, secure, and in addition are fire-proof.



6000 Durand-Steel Lockers are Installed in the Public Gymnasiums of Chicago.

Recent orders for Durand-Steel Lockers include Yale University, Alabama Polytechnic Institute, Johns Hopkins University, University of Illinois, St. Mark's School, Southboro, Mass.; St. Andrew's School, Richmond, Va.; Gonzaga College, Spokane, Wash., and a large number of the most prominent Y. M. C. A.'s.

The following standard sizes are those most commonly used:

12 x 12 x 36", in double tier.	12 x 12 x 60", in single tier.
15 x 15 x 36", " " "	15 x 15 x 60", " " "
12 x 12 x 42", " " "	12 x 12 x 72", " " "

Special sizes made to order.

Illustrated Catalogue sent on request.

CHURCHILL & SPALDING
470 Carroll Ave. CHICAGO, ILL.

Most lockers are expensive to set up and require a constant outlay for maintenance owing to the use of very thin sheet steel, cheap hinges and locking devices, etc. All parts of Durand-Steel Lockers fit accurately together and special steel is used which is of sufficient thickness to insure durability. The locking device is simple, very secure, and cannot get out of order.

NO. 223—HOW TO BAT.

The most important part of ball playing nowadays, outside of pitching, is batting. The team that can bat and has some good pitchers can win base ball games; therefore, every boy and young man who has, of course, already learned to catch, should turn his attention to this department of the game, and there is no better way of becoming proficient than by reading this book and then constantly practising the little tricks explained therein. Price 10 cents.

NO. 224—HOW TO PLAY THE OUTFIELD.

Compiled especially for the young player who would become an expert. The best book on playing the outfield that has ever been published. There are just as many tricks to be learned, before a player can be a competent fielder, as there are in any other position on a nine, and this book explains them all. Illustrated with numerous page pictures of leading outfielders. Price 10 cents.

NO. 225—HOW TO PLAY FIRST BASE.

No other position in a ball team has shown such a change for the better in recent years as first base. Modifications in line with the betterment of the sport in every department has been made at intervals, but in no other department have they been so radical. No boy who plays the initial sack can afford to overlook the points and hints contained in this book. Entirely new and up to date. Illustrated with full-page pictures of all the prominent first basemen. Price 10 cents.

NO. 226—HOW TO PLAY SECOND BASE.

There are so few men who can cover second base to perfection that their names can easily be called off by anyone who follows the game of base ball. Team owners who possess such players would not part with them for thousands of dollars. These men have been interviewed and their ideas incorporated in this book for the especial benefit of boys who want to know the fine points of play at this point of the diamond. Illustrated with full-page pictures. Price 10 cents.

NO. 227—HOW TO PLAY THIRD BASE.

Third base is, in some respects, the most important of the infield. No major league team has ever won a pennant without a great third baseman. Collins of the Boston Americans and Leach of Pittsburg are two of the greatest third basemen the game has ever seen, and their teams owe much of the credit for pennants they have won to them. These men in this book describe just how they play the position. Everything a player should know is clearly set forth and any boy will surely increase his chances of success by a careful reading of this book. Illustrated. Price 10 cents.

NO. 228—HOW TO PLAY SHORTSTOP.

Shortstop is one of the hardest positions on the infield to fill, and quick thought and quick action are necessary for a player who expects to make good as a shortstop. The views of every well-known player who covers this position have been sought in compiling this book, and it is offered as being the most complete book of its class ever produced. Illustrated. Price 10 cents.

NO. 229—HOW TO CATCH.

Undoubtedly the best book on catching that has yet been published. Every boy who has hopes of being a clever catcher should read how well-known players cover their position. Among the more noted ones who describe their methods of play in this book are Lou Criger of the Boston Americans and Johnnie Kling of the Chicago Nationals. The numerous pictures comprise all the noted catchers in the big leagues. Price 10 cents.

NO. 230—HOW TO PITCH.

A new, up-to-date book. No boy can afford to be without a copy of it. Edited by John B. Foster of the Evening Telegram (New York). The object of this book is to aid the beginners who aspire to become clever twirlers, and its contents are the practical teaching of men who have reached the top as pitchers, and who have had experience. Price 10 cents

NO. 231—HOW TO COACH; HOW TO CAPTAIN A TEAM; HOW TO MANAGE A TEAM; HOW TO UMPIRE; HOW TO ORGANIZE A LEAGUE.

A useful guide to all who are interested in the above subjects. Jimmy Collins, manager-captain of the Boston Americans, writes on coaching; M. J. Kelly of the St. Paul champions, on captaining; Al Buckenberger of the Rochester team, on managing; Frank Dwyer of the American League staff, on umpiring; Fred Lake on minor leagues, and the editor, T. H. Murnane, President of the New England League, on how to organize a league. Price 10 cents.

NO. 232—HOW TO RUN THE BASES.

The importance of base running as a scientific feature of the national game is becoming more and more recognized each year. Besides being spectacular, feats of base stealing nearly always figure in the winning of a game. Many a close contest is decided on the winning of that little strip of 90 feet which lies between cushions. When hits are few and the enemy's pitchers steady, it becomes incumbent on the opposing team to get around the bases in some manner. Effective stealing not only increases the effectiveness of the team by advancing its runners without wasting hits, but it serves to materially disconcert the enemy and frequently has caused an entire opposing club to temporarily lose its poise and throw away the game. This book gives clear and concise directions for excelling as a base runner; tells when to run and when not to do so; how and when to slide; team work on the bases; in fact, every point of the game is thoroughly explained. Illustrated with pictures of leading players. Price 10 cents.
